	6/6 ribonucleoside triphosphate biosynthetic process	
ſ	9/9 ribonucleotide metabolic process	p < 0.001
П	70/93 cellular nitrogen compound biosynthetic process	p < 0.01
	48/66 organonitrogen compound biosynthetic process	p < 0.05
П	17/26 carbohydrate derivative metabolic process	
	46/72 small molecule metabolic process	
1	10/12 monovalent inorganic cation transport	
	18/27 cation transport	
	5/5 ATP metabolic process	
L	6/7 inorganic cation transmembrane transport	
	50/65 cellular macromolecule biosynthetic process	
ſ	62/80 macromolecule biosynthetic process	
	35/44 cellular amide metabolic process	
L	35/37 amide biosynthetic process	
	5/6 metal ion homeostasis	
	8/11 metal ion transport	
	5/5 tricarboxylic acid cycle	
	21/34 carbohydrate metabolic process	
	49/78 proteolysis	
	4/6 bioluminescence	
	23/27 oxidation-reduction process	
	7/7 membrane organization
